WISE AI/MML

Python | Git/GitHub | Problem Solving

- A motivated and design-oriented Student of Software Engineering - Artificial Intelligence Advanced Diploma
- Gained hands on experience using HTML, CSS, and JavaScript through academic web development projects
- Skilled with front-end development and user interface design, with a focus on creating clean, engaging, and easy-to-navigate digital experiences for users
- Experienced in designing and improving web layouts and visual elements, combining creativity with functionality to make software more intuitive for users
- A keen problem solver who enjoys breaking down challenges, exploring different solutions, and finding practical ways to improve projects
- Collaborative team player who values different perspectives and uses feedback from others to strengthen ideas and improve end results
- Able to adapt quickly to new technologies and translate theoretical knowledge to applied projects

TECHNICAL SKILLS

Programming: Java, SQL, C#, JavaScript, HTML/CSS, Python

Frameworks & Libraries: React, Express, .NET, Node.js, Django

APIs & Web Technologies: REST APIs, HTTP, JSON

Operating Systems: Unix, Linux, Windows, MacOS

Tools: Git, Visual Studio Code, Eclipse, MS Office, Visio

Design Tools: Canva, Photoshop

EDUCATION

Software Engineering Technology (Co-Op) Advanced Diploma

September 2025 - Present

Centennial College, Toronto, ON

GPA: 4.1/4.5 (A)

Relevant Courses: Python Programming | Web Interface Design | HTML-CSS | Database – SQL | Client-Side Web Development | JavaScript | Unix/Linux Operating Systems | C# Programming | Java Programming | Web Application Development | MERN – MEAN | AI Foundations | AI Systems Design

ACADEMIC PROJECTS

Website Repair Project | HTML | JavaScript | CSS | [Project Link](#)

- Collaborated with a classmate to diagnose and fix a website with broken links and layout issues.
- Responsible for building the menu, ordering, and checkout pages with attentiveness to user-oriented design .

Crepes and Waffles – Website | HTML | JavaScript | CSS [Project Link](#)

- Designed and built a website with responsive design for a restaurant over the course of the semester as a final project, drawing inspiration from a real restaurant.

Warehouse Inventory Database System – Group project | Oracle SQL | Database Design | ERD | SQL Queries [Project Link](#)

- Designed and implemented a relational database system for a warehouse to manage computer components, inventory, suppliers, purchase orders, customers, and shipments using Oracle SQL.
- Analyzed system requirements and translated business requirements into functional requirements, business rules, use cases, and warehouse workflows.
- Designed ERD and normalized database schemas through Third Normal Form (3NF), establishing primary/foreign keys and relationships while reducing data redundancy.
